

# DUALBLOCK® SISTEMS FOR TWO-DOORS INTERLOCK

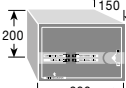

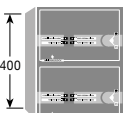

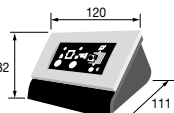

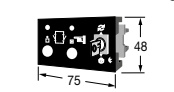

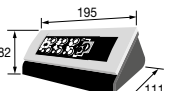

## Export Product-list

January 2018

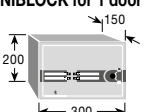

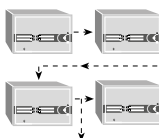

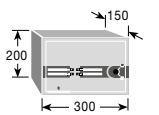

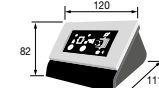

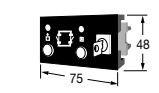

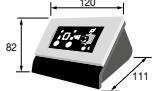

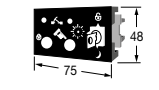

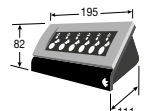

**TECNODIMENSIONE®**

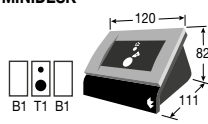

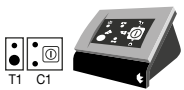

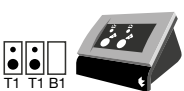

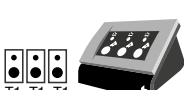

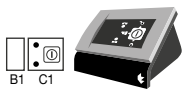

Electronic system to provide 2-door mutual-acknowledgment interlocking access, so that, for example, the 2nd door is locked after the 1st one is closed (and vice-versa).  
The system named "1 bidirectional TUNNEL" (two-ways transit) is basically composed of: 1 DUALBLOCK® control panel + 1 DUALDESK remote desktop console (see below).  
In addition 4 DUALUX top/go displays and/or DUALVOX intercom + accessories (see pertinent sheets).

TECHNICAL CHARACTERISTICS Control panels in heavy duty metallic cabinet for wall mounting. Battery compartment to hold 1 battery at 12Vdc/6Ah or 2 batteries 12Vdc/1,9Ah. Front panel with key selector for on/off alarm, power indicating led, individual door status led, alarm led	DUALBLOCK® CONTROL PANEL WITH “INTERLOCK” LOGIC												Ordering information 	MODELS	Q.ty N°

ACCESSORIES (optional) For the consoles listed above	Phone receiver independent PH (separate) table and/or wall intercom handset.												S034858F			

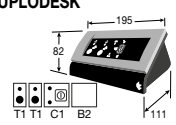

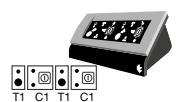

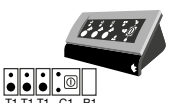

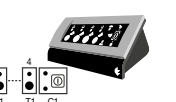

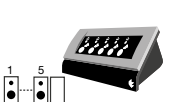

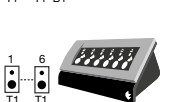

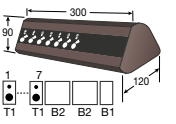

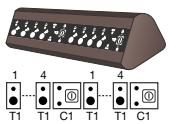

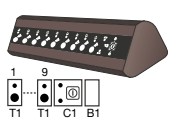

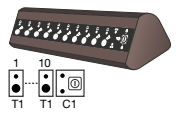

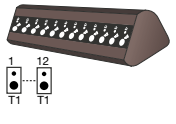

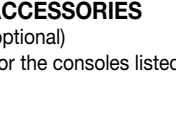

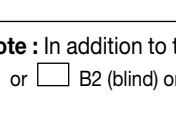

**Note 1:** The auto-manual key selector built-in on Minidualdesk console (Mod. 034752) operates as "simultaneous locking" command of both doors (or in alternative as unlocking command).  
If both lock/unlock functions are required to be present, in alternative should be used Dualdesk (Mod. 034750) or additional key selector (for example, housed into Dualblock® control panel).  
**Note 2:** The published product do **not include** the batteries (at your care). Must be used specific rechargeable batteries "lead sealed type" (typical type for alarm systems).

UNIBLOCK & MULTIBLOCK SYSTEMS												Export Product-list January 2018					
<b>For 1 door management or multiple door interlocking logic</b> Control of electrical drop bolts and/or door strikes (both fail-secure and fail-safe). Stop/go displays supervision. Timed opening command with automatic re-lock/unlimited temporary de-activation/or block of locking functions. Ideal solution for Banks, Post Offices, Security rooms, etc.																	
<b>TECHNICAL CHARACTERISTICS</b> Control panels in heavy duty metallic cabinet for wall mounting. Battery compartment to hold 1 battery at 12Vdc/6Ah or 2 batteries 12Vdc 1,9Ah. ## LOGICAL CARDS

### FOR DOOR INTER-SIGNALLING WITH ACKNOWLEDGMENT

### PHARMABLOCK

**Ideal for clean rooms**, anti-contamination changing rooms used, pharmaceutical laboratories, research departments and controlled areas.

**Logical card** in Print Mather Board execution (without housing) prepared to manage with visually lights (without locks) the interdependence of 2 doors + 2 doors with presence control (changing room in use).  
Alarm relay for simultaneously opened doors. 12VDC/100 mA power supply.

Note: the selling of these module are devoted to specialised installers and is used to interface the systems present in clean rooms.

Pharmablock control units for several zones with preset logics are also available on request (see below).

034742H

### PHARMABLOCK TECNODIMENSIONE door management devices and systems for "Clean Room"

The specified documentation Clean-Room in "Clik&Go" version or Flexicon version.
